

Lucas Ng

For JCR President

About me

I'm Lucas, a 2nd year Engineer. When I'm not struggling with tripos questions, I can be found rock climbing or consuming copious quantities of Butterfield paninis.

I've ended up immersed in College bureaucracy and I want to use this insight to represent **you** in College negotiation to improve student life by prioritising transparency and compassion.

Experience

- Head Frep
- Downing May Ball Food Officer
- Downing Student Ambassador
- Austyn Mair (Engineering) Society President
- Danby Society Social Secretary

Proposals

- Add an anonymous feedback form to JCR emails so you can directly tell your committee what you want to see
- Update all of the content on the JCR website to accurately reflect current info
- Encourage College to publish info more clearly so students don't have to ask College staff the same questions over and over again...
- Streamline room and event bookings to make event organisation easier
- Better align College Conferencing with the interests of students
- Enhance the Downing JCR social media presence
- Increase signposting for event, opportunities and support systems of all kinds
- Make the fragmented (and arguably confusing) Downing intranet more seamless and easier to use
- Spearhead the refurbishment of the Butterfield and JCR
- Improve group study areas
