

Tom Mills (tm774)

Internet Officer

(2nd year, Law)

Re-elect me!

I've already:

- Moved the ballot online
- Streamlined the process for banding and pricing rooms
- Helped get rid of the bar sign-in system
- Migrated JCR services to our new server
- Maintained legacy services to keep them running and secure

My plans:

- New room review and photo app to provide more information when selecting rooms
- Investigating an 'effective' size criteria for banding rooms to reflect rooms that have variable heights
- New JCR website
- Continue developing JCR IT infrastructure to ensure minimal downtime and increase resilience

Putting the serve in server!

I've already spent one entire summer looking at room bands, and I'm willing to do it again!
